

INTRODUCING

# BLUE FIN™

**CARPET WELDING and SEAMING IRON**

**The first iron designed for seaming AND welding today's softer temperature-sensitive carpets.**

- Evenly spreads heat over the entire iron base.
- Heat shield stays 7° – 10° cooler over competitor irons!
- Low-Temperature Swing: heat fluctuates only 15°!
- Developed to reactivate thermoplastic edge sealer from STIXX™ welding glue sticks.

↑  
See it in Action!

15-ft (4.57m)  
power cord

Grooved tail-end for exiting seams!

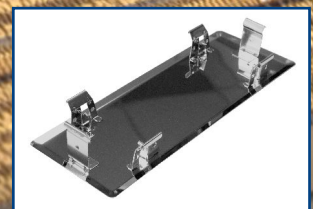

Other great features:

- High-Quality Thermostat
- Heavy-Duty Handle Construction and Larger Temperature Setting Dial
- Strong, Rigid Internal Wiring
- Lighted Display: Red Light = Power On  
Green Light = Iron at Temperature

Comes in a fully-grooved base

...and standard iron tray

TRAXX Order No. TTX-6250 | 1 EA

**An essential component of the TRAXX Carpet Edge Welding System**  
— see more on-line at [www.traxxcorp.com](http://www.traxxcorp.com)

As part of the TRAXX Carpet Welding System, BLUE FIN™ will help you weld carpet seams that virtually eliminate visibility and peaking!

...without welding!

with Traxx's system!
