

GREEN!

by **TRAXX**

No Odor. No Mess. Superior Seams. No Kidding.

The Best System In The World Keeps Getting Better!

Since its introduction, the award-winning Kool Glide seaming system has been recognised by installers, retailers and carpet mills as a superior way to seam carpet. Now, improvements and additions to the Kool Glide line make it even better!

KOOL GLIDE® Tapes:

<p>PREMIUM TAPE (COATED) Medium-to-heavy foot traffic: commercial and residential. Great adhesive. Silicone coated paper to reduce sticking. 4½-in width / 4-in scrim</p>	<p>PREMIUM TAPE (UNCOATED) Medium-to-heavy foot traffic: commercial and residential. Great adhesive. Uncoated paper backing. 4½-in width / 4-in scrim</p>	<p>PREMIUM DOUBLE-STICK TAPE Adhesive on both sides for commercial double glue-down applications. 4½-in width / 4-in scrim</p>	<p>STANDARD TAPE (UNCOATED) Light-to-medium foot traffic: residential and light commercial. 4½-in width / 3-in scrim</p>	<p>UTILITY TAPE 2-sided bonding tape for hard surfaces: starter rows, board replacement, back-splash and many more. 3½-in width / no scrim</p>

WHAT'S CHANGED?

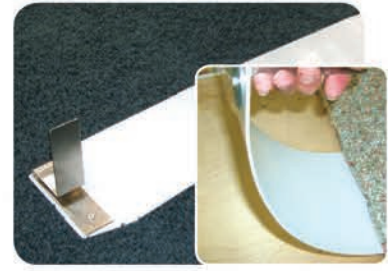

IMPROVED ADHESIVE PENETRATION
We've moved the adhesive around to give you better penetration into all carpet backings. You will notice certain beads are a little higher and you will notice a stronger bond.

IMPROVED TOOL LIFE
Some of the Kool Glide electronics on the inside have been upgraded for longer tool life and fewer repairs.

LOWER PRICE TAPE
Now you can buy Kool Glide Standard Tape for those jobs where economy is important.

SEAM AND SEAL IN ONE EASY STEP
With the edge seaming tip, you can now seal seams by running just one bead of the Kool Stic® hot-melt on one side of the seam. When you activate the tape, the seam sealer is also activated flowing to both sides. With this fast, easy system there is no reason not to seam seal!

TEFLON® SEAMING BOARD
This flexible seaming board is designed specifically to be used with Kool Glide. The special Teflon® material holds heat for a better bond and prevents tape sticking. The handle doubles as a tape guide to improve centering. And, because the material is flexible, this product is a lot easier to remove at the end of the seam.

Look at all the KOOL GLIDE® advantages:

- No Smoke. No Odor. No Pollution.
- Low Heat – No Heat Damage
- No Warm-Up and Cool-Down
- Easy Pattern Matching
- One Step Seam Sealing
- No Messy Wet Glue
- Easy Seam Sealing
- Reversible Bond for Easy Repair
- Flat Seams – No Peaking
- Can't Burn Installer
- Universal Adhesive
