1 Identification

Product identifier

Trade name: KOVARA® Double Sided Tape

SDS ID Number: 2930

Relevant identified uses of the substance or mixture, and uses advised against:

Moisture Barrier. Specialty construction product. Not intended for other uses.

Details of the supplier of the safety data sheet

Manufacturer/Supplier:

TRAXX Corporation 1201 E. Lexington Avenue Pomona, CA 91766 | USA

Information Department:

USA: +1-909-623-8032 (8AM - 5PM PST)

+1-909-623-8074 (FAX)

Email address: info@traxxcorp.com

Transport Emergency: Chemtrec +1-800-424-9300 (24 hours)

2 Hazard(s) identification

Classification of the substance or mixture

Harmful if inhaled. Causes skin irritation. Causes serious eye irritation. May cause cancer. Suspected of damaging fertility or the unborn child. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure.

Label elements:

Hazard pictograms

Danger

Hazard statements Harmful if inhaled. Causes skin irritation. Causes serious eye irritation. May cause cancer.

Version Number 1.1

Trade name: Kovara® AB 300

(Cont. fr

(Cont. from page 1) Suspected of damaging fertility or the unborn child. May cause respiratory irritation. May cause damage to organs through prolonged or repeated exposure. **Precautionary statements** Avoid breathing gas. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. If on skin: Wash with plenty of water. IF INHALED: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF exposed or concerned: Get medical advice/attention. Call a poison center/doctor if you feel unwell. Take off contaminated clothing and wash it before reuse. If eye irritation persists: Get medical advice/attention. NFPA ratings (scale 0 - 4) Health = 1Fire = 1Reactivity = 0HMIS-ratings (scale 0 - 4) HEALTH *1 Health = *11 FIRE Flammability = 1Reactivity = 0REACTIVITY 0 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable. **vPvB:** Not applicable.

3 Composition/information on ingredients

Chemical characterization: Mixture

Hazardous components:

50-00-0 Formaldehyde

Additional information:

This material is capable of releasing formaldehyde into the air at concentrations reaching or exceeding 0.1 ppm. Non-hazardous ingredients may be listed in Section 15; Right-To-Know disclosure.

4 First-aid measures

Description of first aid measures

General information: Get medical advice/attention if you feel unwell.

After inhalation: If experiencing respiratory symptoms: Call a POISON CENTER/doctor.

After skin contact: Clean and wash with water and soap. In case of skin irritation see the doctor.

After eye contact:

Rinse cautiously with water for several minutes.

If symptoms persist, consult a physician.

After swallowing: Due to physical nature of this product, ingestion is not likely.

Information for doctor:

Most important symptoms and effects, both acute and delayed No further relevant information available.

(Cont. from page 2)

Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 Fire-fighting measures

Special hazards arising from the substance or mixture No further relevant information available.

Advice for firefighters

Protective equipment: Wear personal protective equipment.

Additional information Collect contaminated fire fighting water separately. It must not enter the sewage system.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Wear protective equipment. Keep unprotected persons away.

Methods and material for containment and cleaning up: Pick up mechanically.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

Handling:

Precautions for safe handling

Wash thoroughly after handling.

Do not eat, drink or smoke when using this product. Wash skin after handling.

For professional use only. Keep out of children's reach.

Information about protection against explosions and fires: No special measures required.

Conditions for safe storage, including any incompatibilities

Storage:

Information about storage in one common storage facility: No special measures required.

Further information about storage conditions: Keep receptacle tightly sealed.

Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Additional information about design of technical systems: No further data; see item 7.

Control parameters

Components with limit values that require monitoring at the workplace:

50-00-0 Formaldehyde

PEL (USA) Short-term value: 2 ppm Long-term value: 0.75 ppm see 29 CFR 1910.1048(c)

(Cont. on page 4)

Version Number 1.1

Trade name: Kovara® AB 300

	(Cont. from page 3)				
REL (USA) Long-term value: 0.016 pr Ceiling limit value: 0.1* p *15-min; See Pocket Guid	pm				
TLV (USA) Short-term value: 0.37 mg Long-term value: 0.12 mg DSEN; RSEN	/m ³ , 0.3 ppm				
Additional information: The lists that	were valid during the creation were used as basis.				
Exposure controls					
Personal protective equipment:					
General protective and hygienic meas	sures:				
Avoid contact with the eyes and skin.					
The usual precautionary measures for h	andling chemicals should be followed.				
Breathing equipment: Atmospheric levels should be maintaine A NIOSH approved respirator for Form additional information, refer to US OSH	aldehyde vapor is required whenever exposures exceed regulatory limits. For				
Protection of hands: Gloves should be	worn to prevent skin contact and should be impermeable and resistant to the product.				
Material of gloves Rubber or other imp	pervious gloves should be worn to prevent skin contact.				
Eye protection:					
Safety glasses with side shie	Safety glasses with side shield protection.				
Body protection:					
Use personal protective equipment as re-	anired				
Take off contaminated clothing.					
9 Physical and chemical properti	les				
Information on basic physical a					
General Information	<u> </u>				
Appearance: Form:	Solid				
Color:	According to product specification				
Odor: Odor threshold:	Slightly sweet Not determined.				
pH-value (~):	Not applicable.

Other information	No further relevant information available.		

10 Stability and reactivity

Reactivity Stable under normal conditions.

Chemical stability

Thermal decomposition: No decomposition if used according to specifications.

Possibility of hazardous reactions No dangerous reactions known.

Conditions to avoid No further relevant information available.

Incompatible materials: No further relevant information available.

Hazardous decomposition products: Carbon monoxide and carbon dioxide

11 Toxicological information

Delayed and immediate effects and chronic effects from short or long term exposure May cause damage to organs through prolonged or repeated exposure.

Information on toxicological effects

Acute toxicity:

LD/LC50 values relevant for classification:

50-00-0 Formaldehyde				
Dermal	LD50	270 mg/kg (rabbit)		
Inhalation	LC50, 4h	>200 mg/l (rat)		

Primary irritant effect:

on the skin: Causes skin irritation.

on the eye: Causes serious eye irritation.

inhalation: Harmful if inhaled. May cause respiratory irritation.

Ingestion: May cause damage to organs through prolonged or repeated exposure.

Additional toxicological information:

Suspected of damaging fertility or the unborn child. May cause cancer.

Revised: 03/27/2023

Carcinogenic categories

IARC (International Agency for Research on Cancer) Human Carcinogenicity: Group 1- Positive, Group 2A- Probable, Group 2B- Possible, Group 3- Not Classifiable

50-00-0 Formaldehyde

NTP (National Toxicology Program)

K-Known to be carcinogenic, R-May reasonably be anticipated to be carcinogenic

50-00-0 Formaldehyde

OSHA-Ca (Occupational Safety & Health Administration)

50-00-0 Formaldehyde

12 Ecological information

Toxicity

Aquatic toxicity: No further relevant information available.

Persistence and degradability No further relevant information available.

Behavior in environmental systems:

Bioaccumulative potential No further relevant information available.

Mobility in soil No further relevant information available.

Results of PBT and vPvB assessment

PBT: Not applicable. **vPvB:** Not applicable.

Other adverse effects No further relevant information available.

13 Disposal considerations

Disposal methods:

Consult all regulations (federal, state, provincial, local) or a qualified waste disposal firm when characterizing product for disposal. Dispose of waste in accordance with all applicable regulations.

Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Uncleaned packagings:

Recommendation: Dispose of contents/container in accordance with local/regional/national/international regulations.
