

KOVARA® / VAPORSHIELD™ AB 300

floor moisture barrier

Fast protection for flooring assemblies,
now with peel and stick application

The trusted KOVARA® / VAPORSHIELD™ moisture barrier
with advanced adhesive formulation

The KOVARA® / VAPORSHIELD™ AB 300 floor moisture barrier is a patent-pending, self-adhered moisture barrier designed to be installed directly to concrete floor slabs and before floor covering application. It is specially designed to help protect floor adhesives and finished flooring from staining, warping and does not promote mold growth resulting from moisture vapor and alkaline salt infiltration through the concrete slab. Its self-adhesive technology allows fast, secure installation on slabs with up to 100% relative humidity.

KOVARA® / VAPORSHIELD™ AB 300 product benefits:

- Reduces installation time from days to hours
- Split release liner for quick peel-and-stick application – no box grid of tape needed
- Supports heavy floor traffic and rolling loads
- No primer needed
- Mineral top coat readily accepts most adhesives
- Less downtime and business disruption
- No shifting or buckling from heavy traffic and rolling loads
- No shot blasting required; self-leveling only needed for uneven floors

KOVARA® / VAPORSHIELD™ is now a TRAXX moisture mitigation product.

Faster Installation

The AB 300 floor moisture barrier features best-in-class adhesion to the substrate. This KOVARA® / VAPORSHIELD™ product represents a moisture mitigation solution that can be applied faster, simpler and cleaner than epoxies and other liquid moisture barriers.

TRAXX's Technical Services team can work with you to review the existing conditions and ensure a smooth installation.

KOVARA® / VAPORSHIELD™ AB 300 membrane installation instructions, including information on substrate preparation and membrane installation, can be found on traxxcorp.com.

Approved Floor Coverings

The following products have been approved for use with the KOVARA® / VAPORSHIELD™ AB 300 floor moisture barrier, when installed according to the manufacturers' recommendations.

- Carpet tile
