# ORX-300

## 300-Watt Glue Applicator System

### The following features outperform competitor versions:

- **Powerful 300-Watt heating element**—designed for higher temperature and 30% greater glue dispensing output.
- **Adjustable Temperature Control** – allows temperature setting from 266°F to 428°F (130°C – 220°C)
- **Stroke Adjuster** – adjusts trigger output.
- **Ergonomic Handle and Trigger** – reduces trigger effort and enhances grip comfort.
- **Glue Stick Gauge: .43"** (11.0mm)
- **Lightweight** – Compact size, non-fatigue.
- **Durable** – non-breakable handle.
- **Fast Activation** – tool is ready to use in under 5 minutes!
- **Drip-Free Nozzles** – no mess! Includes 2 types.
- **Durable Carrying Case**

Adjustable temperature control:

System includes hard storage case, and two nozzles.

#### Tool Information

Product No: **ORX-6300**

Electrics: **300-Watt | 120V – 60Hz**

Cord Length: **8-feet** (2.44m)

Warranty: **1 Year**

Designed for use with **TACK-PRO™** or **TACK-PRO PLUS™ EOT** glue sticks, or **STIXX™** equivalent sticks.

#### TACK-PRO™ & TACK-PRO PLUS™ EOT PREMIUM STICKS:

- Premium grade for tack strip, metal, vinyl, rubber and many other interior applications.
- 45-sec open time / 5-min cure time / 3-min extended open time (EOT only).
- Upon curing, tack strip can be power-stretched immediately.
- Bonds to porous and non-porous substrates.
- Long-lasting industrial bond – will not become brittle.
- Non-toxic, No VOC's.
- For use with ORCON'S ORX-300, FastenMaster's HB-220 and other equivalent glue guns.

ORX-300 can also be used with these nozzles:

Orange Nozzle  
**TTX-6581**

Double Barrel Nozzle  
**TTX-6582**

Steel Piercing Nozzle  
**TTX-6584**

**ORCON ORX-300 is better than ALL OTHERS!!! Compare:**
